### PTA MISSION

The Greenwood PTA Mission is to support a *vibrant* Greenwood Elementary community that provides *stimulating enjoyable* and *participatory* experiences that *enrich* the lives of every Greenwood student !!

The Greenwood PTA 's Goal is to Provide stimulations, enjoyable, and participatory experiences that enrich the lives of every student.

The staff of Greenwood works hard to fulfill the academic needs of your child, but their time and resources are already stretched. By volunteering your time and resources, you can help create an school community which will have an incredible influence on your child during these important years. Time commitments can be as little as an occasional hour, a weekly commitment throughout the year, or a chunk of time for one special project. Help is needed during the school day but can also be very flexible to accommodate your schedule. Resource commitments can vary from donations of money, products, or services to help with our many projects during the year.
